

GOOD FRIDAY

April 2, 2021

7PM Worldwide

FREE ONLINE EVENT

Good Friday is an annual worldwide broadcast event focused on sharing the good news of Jesus. We are on a mission to make Good Friday a global declaration of Jesus. It is a public call to evangelism as now is the moment to share the Gospel. We do not have time to wait as the world is continually flooded with grim news. The nations are desperate for hope, for peace, for stability, for joy, for good news. And we have it.

Good Friday 2020 was a response to the COVID-19 pandemic that swept our world. As churches were not able to meet in person we decided to bring the Gospel to them. In just seven short days the Pulse team created a Good Friday service that went global.

As a result, the program was broadcasted in over 115 million homes, in 120 countries, translated in 40 different languages. And most importantly, we saw over 130 thousand people commit their lives to Jesus.

God took this into places we could only dream of and yet we know there are still more people who need to hear.

Good Friday 2021 will be the second of its kind as a global outreach event focused on sharing the good news of Jesus. The news that caused Him to sacrifice everything for you. Join us, on April 2nd to hear of the hope we all so desperately need through Jesus.

Host a broadcast by inviting your family, friends, neighbors, and congregation to enjoy the experience together! Enhance your experience by hosting the Good Friday broadcast in your home or church. You will be equipped with resources focused on engagement with the program and the people in your home or church. Don't miss out on the opportunity to share the good news of Jesus with people in your life!
